

SEATING IN THE RIGHT PLACE

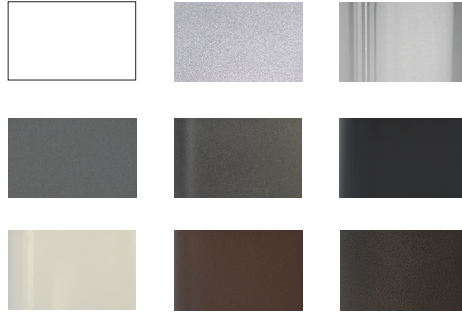

Make a statement with suspended seating.

FLOATING CHAIRS revealing the *magic*

Seating Innovations' suspended bar stools do not require modification to the countertop. The seating systems are freestanding and mount directly to the floor.

The frame system is typically concealed behind the finish panel, thus giving the illusion of chairs hanging from the countertop.

SWING ARM COLORS hardware options

Seating Innovations has been adding swing out bar stools one house at a time since 1956.

We offer a variety of chair styles along with hardware color options.

WHY SUSPEND? 5 important reasons

Easy to clean under chairs

Chairs return to resting position

Prevents damage to floors and countertops

Chairs no longer tip over

Chairs hold up to 500lbs
